

Dear Future and Present Members of TSA,

For those of you that don't know me, my name is Kylee Wallis. I am a junior and the chapter parliamentarian at Alma high school and as of 2025 I have been in TSA for two years. That is absolutely insane to me because I remember being a sophomore being nervous to join TSA. I wasn't sure if I would be able to do any of the projects, to move on at any of the competitions and I was just scared that I wouldn't have anyone to talk to. But boy was I wrong. TSA has been insanely welcoming to every new chapter and I have never been to a TSA event and not talked to at least five people that I didn't know beforehand.

Through TSA I've met so many amazing friends. I will have to humbly apologize to those that I rambled on and on to during the last TSA nationals. There's just something that TSA brings out in me. I get to see people making projects that they're passionate about and getting to talk to people about something I'm passionate about is just something beautiful we have within TSA. I came into TSA nervous to present my project and talk about it, but once I got to state there were so many kind people willing to talk and listen, it was truly encouraging. And that is what I strive to be in TSA, someone who will listen and talk to people about what they're passionate about. I want people to be confident in coming up to me and talking about their projects. I love seeing people light up when they ramble on about their project they made.

Another one of my goals is to expand TSA. I would love to watch TSA grow, gathering more members, and more schools. With more TSA chapters, the possibilities are endless. The more members we bring in the more perspectives we get and more people that can find that special feeling of TSA. I would love to continue bringing people in the TSA at my school and at all schools around Arkansas. Looking at what we have already achieved, I can strongly say that I am nothing but the proudest to be a part of Arkansas TSA. We are one of the most accepting organizations out there, and I can say that as a fact. It really is something special seeing people getting out of their comfort zone and talking to so many people around them due to TSA. And that's due to all of you. I would love to thank all of you for keeping TSA's arms open to the new chapters.

TSA has truly made a major impact on my life. I would love to help the new chapters and help those who were as nervous at joining as I was by giving them someone to look up to who will listen and ramble on with them. To provide insight and help the new chapters who are struggling with what to do or how to do something. I would love to provide that hand to lead them, to teach them, and to show them the right path to take. I want to watch TSA grow as a whole and be there to lead it to bigger and better projects and paths. I can not wait to walk down that path with each and every one of you, new members, old members, state officers, and everyone involved in TSA.

Thank you,
Kylee Wallis
